General Information: Community College of Philadelphia and Holy Family University have signed a dual admissions agreement. The agreement matches specific CCP associate degree programs with specific Holy Family bachelor degree programs. It provides a smooth transition to the university for students with an earned associate degree in an area stipulated in the agreement if requirements of the agreement are met. It is possible that a specific transfer GPA may be required.

To enroll in the dual admissions program, students must complete a Holy Family dual admissions form before 45 college credits are earned. This form serves as the application to Holy Family. It is available in the Education Support Services office in room W1-1. Students with at least a 2.8 GPA upon entrance to Holy Family are eligible for scholarships. These scholarships are renewable each year contingent on the maintenance of a minimum GPA. Current scholarship information is available from the Office of Admissions at Holy Family University.

Entry to CCP as of Fall 2014.

The three tracks of study in Psychology:

**General Psychology Track**: This track will appeal to students who wish to major in psychology but have no plans to go to graduate school or to enter the clinical area. This track prepares students with broad-based foundations in the basic areas of psychology, including psychological theory and research methods. The track emphasizes critical thinking, stresses the values inherent in the field of psychology and highlights the application of psychological theory of personal, social and organizational issues.

**Mental Health Services Track**: This track provides an opportunity for specialization for those students who wish to work in hands-on mental health positions following graduation. Coursework provides an introduction to various populations, including children, those with addictions, groups, and provides a solid foundation in theories of counseling.

**Research Track**: This track is designed for students wishing to pursue graduate study following completion of the baccalaureate degree. Coursework will prepare the student to apply to either masters or doctoral level programs in psychology and included advanced experience in research methods.

Additional information regarding PSYCHOLOGY concentration:

Successful completion of a comprehensive examination is required.
